Work submitted for assessment **must** be the candidate's own. If candidates copy work, allow candidates to copy from them, or cheat in any other way, they may be disqualified.

### Candidate declaration

Have you received help/information from anyone **other than** subject teacher(s) to produce this work?

☐ No

☒ Yes (give details below or on a separate sheet if necessary).

Mr Daniel Wilmot, STEM Ambassador

Please list below any books, leaflets or other materials (for example DVDs, software packages, internet information) used to complete this work **not** acknowledged in the work itself. Presenting materials copied from other sources **without acknowledgement** is regarded as deliberate deception.

## Record of initial ideas

### To be completed by the candidate

This page records initial meeting(s) with your supervisor to agree your project ideas. Additional pages can be submitted if more than one idea has been explored.

My idea(s) for topic/title

Nuclear Databook; Scientific Databook; Elemental, Atomic, Nuclear, Particle, and Quantum Physics and Chemistry Databook

My ideas for research and development of my project

IUPAC Website, CIAAW Website, CERN Website, NIST Website, Wikipedia – use after reference checking only

My summary of the comments and advice from my supervisor

Make sure to write citations in full, if you're unsure then don't use certain data, you don't need to site generally known/accepted items (e.g. element names)

Modifications I have made as a result of my discussion with my supervisor

## Part A: Candidate proposal

### To be completed by the candidate

Working title of my Higher Project.

Present the topic to be researched in the form of a short statement/question/hypothesis with clear focus.

Scientific Databook Containing 8 Accurate and Complete Datasheets for Use in Scientific Institutions, Universities, and Schools

- my initial resources will be

IUPAC Website, CIAAW Website, CERN Website, NIST Website, Wikipedia

- the courses of study or area(s) of personal interest to which the topic relates

Elemental, Atomic, Nuclear, Particle, and Quantum Physics and Chemistry

- my intended product

A scientific databook containing 8 accurate and complete datasheets for use in scientific institutions, universities, and schools

Provide details of the courses that you are currently studying

## Part B: Supervisor's comments on candidate proposal

### To be completed by the supervisor

Please comment below on the validity and feasibility of the candidate proposal (Part A) as a Higher Project

	Supervisor's comments
Indicate the relation to, and development/extension outside of, the main course(s) of study or interest	<a href="#">Click here to enter text.</a>
Comment on the suitability of the proposed initial sources and research base	<a href="#">Click here to enter text.</a>
Confirm that the project is feasible in the proposed timescale and/or indicate any potential difficulties that may prevent the candidate from meeting the assessment objectives	<a href="#">Click here to enter text.</a>

Indicate the expected format of the project product that will be submitted for assessment

- ☐ Research based written report
- ☐ Artefact (for example prototype, model, artwork, scientific investigation, creative writing) plus written report

Is the project a contribution to a group exercise? ☐ YES ☐ NO

If Yes, confirm that there is a defined individual contribution by the candidate ☐ YES ☐ NO

## Planning review

### To be completed by the candidate

This page records your outline plan once your proposal has been approved.

Outline the next steps in my project

My first steps in planning, researching and deadlines that I will set myself

My first step is to research element 1 for D3, Hydrogen, and create a list of all known isotopes. Then I need to find information about the properties for the isotopes and list them in a table. Once complete, I need to continue with all the other elements from that starting point.

My summary of the comments and advice from my supervisor

You can use Wikipedia as a base to locate the source for information, then use that source to fill in the data.

Modifications I have made as a result of my discussion with my supervisor and/or the comments from my centre coordinator

I used Wikipedia as a basis for my research as I did not know where to begin finding information.
